SUMMARY

Full Stack Developer with hands-on experience in React, Node.js, and Supabase, having built projects including a vehicle recognition and number plate detection system and an AI powered nutrition planner. Comfortable working across the stack from designing REST APIs and SQL databases to building responsive UIs with a strong foundation in JavaScript and Python. Quick to learn new tools and frameworks to deliver practical, working solutions.

EDUCATION

St. Agnes College, Mangalore | 2023-2026

Bachelor of Computer Applications

St Joseph's PU College, Bajpe | 2021-2023

Commerce (CSBA)

EXPERIENCE

Thiranex | Jul 2026 – Aug 2026

Full Stack Development Intern | Remote

- Developed and maintained full-stack web applications using React, Node.js, Express.js, and PostgreSQL
- Built responsive and user-friendly interfaces with modern web technologies.
- Designed RESTful APIs and integrated frontend applications with backend services.
- Implemented authentication, CRUD operations, and database management features.
- Used Git and GitHub for version control and project collaboration.

E-Commerce Web Application

- Developed a full-stack e-commerce web application using Node.js, Express.js, JavaScript, HTML, and CSS.
- Implemented JWT authentication, shopping cart, checkout, and order management features.
- Built an admin dashboard for product and order management with CRUD functionality.
- Integrated Supabase, MySQL and JSON-based storage for flexible data management.
- Designed a responsive user interface with product search, filtering, and inventory management.

PROJECT

Vehicle Recognition and Number Plate Detection System

- Developed a React based application to detect vehicles and extract number plate text using OCR
- Implemented Tesseract.js for number plate recognition from uploaded images
- Integrated Supabase database to store vehicle detection results
- Built responsive UI using TailwindCSS and modern React components

SKILLS

Python • Java • JavaScript | HTML • CSS • React • Node.js • Express.js • TailwindCSS • Vite
MySQL • PostgreSQL • Supabase | REST APIs • JWT Authentication • JSON/CSV
Git • GitHub • VS Code • RoboFlow • YOLOv11 • Tesseract.js | Google Cloud • Vercel
